Durga G

Bangalore Urban, Karnataka, India durgaganesan3@gmail.com 7411710175 in/durga-g3

SUMMARY

Aspiring **Python Developer** with ongoing internship experience at **MindMatrixEd**, working on **AI-powered Android applications** using modern tools and techniques. Gaining hands-on exposure to **Generative AI, Prompt Engineering, LLMs, and data-driven problem-solving**. Certified **Agentblazer Champion '20** on Salesforce Trailhead, with strong foundations in **AI, Data, and Autonomous Agents**. Enthusiastic about applying Python skills to **AI-driven and backend development projects**, and continuously learning to build scalable, intelligent solutions.

EXPERIENCE

Android App Development Intern

MindmatrixEd **February 2026 - Present, HSR layout,Bangalore**

- Developed Android apps using Kotlin and Java with integrated Generative AI features.
- Built Smart Gold & Silver Savings Planner prototype in Google AI Studio.
- Applied AI concepts like Prompt Engineering, Autonomous Agents, and LLMs.
- Tested, debugged, and optimized app performance; collaborated on user-friendly solutions.
- Earned Agentblazer Champion '20 badge on Salesforce Trailhead (5,000+ points).
- **Skills:** Kotlin, Java, Android Development, Generative AI, LLMs, Prompt Engineering.

PROJECT

Interactive Projector Screen with Hand Detection Using Gestures

K N S INSTITUTE OF TECHNOLOGY

- github.com/durgaganesan3-glitch/INTERACTIVE-PROJECTOR-SCREEN-WITH-HAND-DETECTION-USING-GETURES
- September 2025 - January 2026
- Developed a gesture-controlled interactive projector system using MediaPipe and OpenCV, allowing users to control mouse movements, clicks, scrolling, zooming, and keyboard actions through hand gestures such as fist, open palm, thumbs up/down, pinch, and victory. Integrated calibration, multi-user support, and smoothing algorithms for accurate and low-latency interaction, tested under varied lighting conditions for responsive and intuitive performance.

IOT-temperature-and-humidity-monitor

K N S INSTITUTE OF TECHNOLOGY • github.com/durgaganesan3-glitch/IOT-temperature-and-humidity-monitor

- September 2025 - December 2025
- Designed and simulated an **IoT-based temperature and humidity monitoring system** in **Tinkercad**, using sensors like **DHT11/DHT22** connected to an **Arduino**. Programmed the Arduino to read sensor data and display it on a **virtual LCD screen**, enabling **real-time monitoring** and testing of threshold-based alerts in a safe simulated environment.

Online-DJ-Management-system

K N S INSTITUTE OF TECHNOLOGY • github.com/durgaganesan3-glitch/Online-DJ-Management-system • September 2024 - January 2025

- I developed an **Online DJ Management system** where I wrote the full **codebase** to manage DJs, playlists, and event bookings. The system allows adding, editing, and removing DJs, organizing playlists, and tracking events efficiently. I focused on **writing modular, maintainable code** and ensuring smooth data handling for all operations. This project helped me strengthen my **programming, problem-solving, and project structuring skills**.

EDUCATION

Bachelor of Engineering computer science

K N S INSTITUTE OF TECHNOLOGY • THIRUMENAHALLI ON KOGILU ROAD,YELAHANKA • 2026 • 8.7

KARNATAKA BOARD-CLASS XII

NEW BALDWIN INTERNATIONAL PU COLLEGE • RAMURTHYNAGAR,BANGALORE • 2022 • 75.8%

KARNATAKA BOARD-CLASS X

NEW BRILLIANT GROUP OF INSTITUTION • UDAYANAGAR,BANGALORE • 2020 • 79.0%

SKILLS

HTML,CSS,JAVASCRIPT,PYTHON ,SQL
